

COMPILED DATA

Levelled 1970
Boundaries Nov 1973

1:2500 scale
(a) Surveyed
(b) Reconstructed from former County Series plans and revised
(c) Revised

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lists, which may contain later levelling information and particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.
The representation on this plan of a road track or path is a convenience of the existence of a right of way.
The alignment of tunnels where shown is approximate.

AREAS

The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 4267 parcel number
1.897ha area in hectares
4.67 area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.
Enclosures or features joined for measurement of area
Limits of area within which individual parcels are not shown

To convert hectares to acres multiply by 2.471 05
To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows—

- Take the two letters preceding the sheet number TQ
- Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin 058
- Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin 291
- The resulting four figure number is the Northing 058291

The full ten figure reference is given by writing first the letters, followed by the Easting and then by the Northing TQ 058291 6.

For further information see "An introduction to the Projection for Ordnance Survey Maps and the National Reference System."
