

MADE AND PUBLISHED BY THE DIRECTOR GENERAL OF THE ORDNANCE SURVEY, SOUTHAMPTON.

COMPILATION DATA

Levelled.....1963.70  
Boundaries.....Mar 1974

(b) Oct 1973

1:2500 scale  
1:1250 scale (photographically reduced)

(a) Surveyed.  
(b) Reconstructed from former County Series plans and revised.  
(c) Revised.

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

HEIGHTS are given in METRES above the Newlyn Datum.  
Bench mark lines, which may contain later levelling information and particulars of bench marks to which no value has been shown, are obtainable from the Director General, Ordnance Survey.  
The representation on this plan of a road, track or path is not evidence of the existence of a right of way.  
The alignment of tunnels where shown is approximate.

| ha.....Hectares                         | P.O.....Post Office                   | Wk.....Works                      |
| L.B.....Letter Box                      | Pp.....Pump                           | Wt.....Water Tap                  |

SYMBOLS

|                            |                 |                                          |
|----------------------------|-----------------|------------------------------------------|
| Non-coniferous trees       | Slopes          | Site of antiquity                        |
| Coniferous trees           | Cliff           | Culvert                                  |
| Surveyed trees             | Cave entrance   | Direction of water flow                  |
| Orchard trees              | Rock            | Electricity pylon                        |
| Coppice, scrub             | Buildings       | Electricity Transmission Line            |
| Bracken                    | Sloping masonry | Triangulation station                    |
| Heath                      | Roofed building | Traverse station (permanent)             |
| Rough grassland            | Glasshouse      | Bench mark                               |
| Reeds                      | Archway         | Surface level                            |
| Change of boundary marking | Revision point  | Revision point and bench mark coincident |

VEGETATION CLASSIFICATION: Where space permits, tree and scrub symbols in woods are shown in groups of four, three, two or singly to indicate close, medium, open or scattered density of trees or scrub.

BOUNDARIES

| England & Wales      |                       | Scotland              |                       |
|----------------------|-----------------------|-----------------------|-----------------------|
| Geographical Country | County Borough        | Geographical Country  | County Council        |
| County Borough       | County District       | County Council        | County of the City    |
| County District      | Civil Parish          | Civil Parish          | Civil Parish          |
| Civil Parish         | Rural Borough         | Rural Borough         | Rural Borough         |
| Rural Borough        | Parish Council & Ward | Parish Council & Ward | Parish Council & Ward |

Where the boundary of an Admin Co. County Borough or Co. of City is coincident with that of a geographical county, the symbol for the latter is shown.  
County type boundary is usually coincident with civil parish boundary and the symbols for both are shown, e.g. Burgh Const & Burgh Bdy, but where any other boundary coincides with that of a civil parish the symbol for the latter only is shown, e.g. Burgh Const & Burgh Bdy, Co Const & Burgh Bdy.

Boundary markings

|                                    |                                |                             |                        |
|------------------------------------|--------------------------------|-----------------------------|------------------------|
| C.B.....Centre of Bank             | C.S.....Centre of Stream, etc. | F.F.....Face of Fence       | T.B.....Top of Bank    |
| C.C.S.....Centre of Covered Stream | D.H.....Ditch                  | F.W.....Face of Wall        | T.H.....Track of Hedge |
| C.D.....Centre of Drain, etc.      | E.K.....Edge of Kerb           | S.R.....Side of River, etc. | Und.....Undefined      |

Imperial equivalents for metric boundary markings  
0.91m = 3ft  
1.22m = 4ft

AREAS

Area measurement is to plan edge only.  
The number and area, in hectares (ha) and acres, is shown within each parcel of land.

EXAMPLE: 4267.....parcel number  
1-807ha.....area in hectares  
4-47.....area in acres

When identifying a parcel it is important to specify the number of the plan on which it falls.  
Enclosures or features joined for measurement of area are shown.....  
Limit of area within which individual parcels are not shown.....  
To convert hectares to acres multiply by 2.471 05  
To convert acres to hectares multiply by 0.404 69

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows—

EXAMPLE from sheet TQ 0529

1. Take the two letters preceding the sheet number.....TQ 0529

2. Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin.....058

3. Take the east edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin.....291

4. The resulting four figure number is the Easting.....058291

5. Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin.....291

6. The resulting four figure number is the Northing.....291291

7. The full ten metre reference is given by writing first the letters.....TQ 058291.6

8. Followed by the Easting and then by the Northing.....TQ 058291.6

For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System.'
